## Hobbies

**3D Printing.** Mocking up 3D models with OpenJSCAD / Cura for printing on my FDM printer (Kingroon KP3S)

**Electronics and Microcontrollers.** Mostly hooking things up to Espruino, ESP8266 and Raspberry Pi boards.

**Making music.** Enjoy playing guitar, keyboard, bass guitar and drums - all self-taught.

**Networking.** Previously run and sponsored the Norwich Ruby User Group and have attended and given presentations at Ipswich Ruby User Group. Previous contributor to Norfolk Tech Journal.

## About you

You're looking for an expert software developer or team lead who can balance getting results with producing high quality code, and brings out the best in others. I'm passionate about what I do, and motivated to see your business flourish as a result.

I'm primarily looking for **remote** or **Norwich**-based contract or permanent roles. If I don't quite fit the bill, or even if you are looking for a full product development team, feel free to get in contact anyway (details at the bottom of this CV) and I'll try to help if I can.
